QUALITY

ABS (shock resistant, recyclable plastic)

FINISH

sprayed in matte white

CONFECTION SIZE

women EU size 36 / men EU size 48

ASSEMBLY

user-friendly fittings

COSMIC introduces a new generation of mannequins made of ABS plastic. Compared to Fiberglass, ABS is more sustainable, durable and user-friendly material that offers you a lot of advantages.

100% RECYCLABLE

ABS plastic is a thermoplastic material which can easily be recycled. By using ABS, we reduce the impact of the environment.

RESISTANT TO IMPACTS

The molecular structure of ABS makes the mannequins incredibly resistant to impacts.

LIGHTNESS

ABS mannequins benefit a reduced weight of 30 up to 50% compared to FRP and PU mannequins.

UV PAINTING

All mannequins are sprayed with VOC (=Volatile Organic Compound) free paint. The UV painting procedure ensures a higher surface quality but above all a higher scratch resistance compared to traditional painting procedures.

FLAME-RETARDANT

Class UL94 HB
Slow burning on a horizontal specimen.
